

23rd Science & Technology Conference and Exposition
The Jamaica Pegasus Hotel, New Kingston
November 9-11, 2010

Sponsorship Prospectus

Gold, Silver, Bronze

About SRC's Science & Technology Conference and Exposition

The 23rd staging of our Science and Technology Conference will provide the opportunity to bring together over 500 participants comprising local and international leaders in the scientific and business communities, academia and government agencies, locally and internationally to focus on solutions to a chronic global problem of climate change under the theme '*Green Technologies for Survival*'.

Conference Background

The conference will attract regional and international interests because of the global impact of environmental degradation and the pressing need to embrace green technologies. Beneficial business partnerships and investments are expected outcomes. Following forty-minute overview presentations, twenty-minute short-paper presentations will be made in the following areas: Food Security, Renewable Energy, Climate Change and Environmental Management, Trade, Health and Safety and Tourism. These will follow an official Opening Ceremony and Cocktails on Tuesday November 9, 2010 at 6:00 p.m. to which government, business officials and members of the Diplomatic Corps will be invited. Activities will climax with an Awards Ceremony for companies involved in the use of Green Technologies, Top Young Research Scientist, Top CXC and CAPE Science Students and winners of the National Innovations Competition.

Activities

Tours will be planned to companies/institutions/attractions engaged in Renewable Energy, recycling, agricultural, and environmental, tourism and other related projects.

Reasons to sponsor this event

- Share and publicize innovative concepts, technologies, and research relating to green technologies and Renewable Energy
- Create awareness and promote your organization or product in the green technologies and Renewable Energy community
- Develop and enhance your image and profile as a leader in the research and development of green technologies and/or Renewable Energy
- Create business or scientific relationships and expand your contact network
- Recruit scientists and engineers with expertise in green technologies and Renewable Energy
- Nurture long-term relationships within this community which is cross disciplinary and multinational.

Advertise in the Conference Magazine

The Conference Magazine contains information on all activities, sessions and special events, including contact information for exhibitors. Each registered attendee receives a copy of this magazine for handy reference throughout the Conference. This guide can be a valuable reference long after the event!

Advertise in the Conference Magazine! We offer the following rates:

Back Cover:	J\$30,000	Inside Cover:	J\$25,000
Full Page:	J\$20,000	Half Page:	J\$15,000
Quarter Page:	J\$10,000	Strips/Classified:	J\$5,000

Support from sponsors is critical to enhancing the development of science and technology in our country and region as a whole.

Three levels of sponsorship are offered: gold, silver and bronze.
