

Company name: Tijule Co. Ltd

Address Paisley Avenue, Palmers Cross
Clarendon, Jamaica

Phone number: (876) 986 4873

Fax:

Year of start of operation Jan-84

Total number of employees

Management 5

Administration 8

Production 61

Main products: Canned ackee
Canned callaloo
Sauces
Cassava Bammy
Jams

Evaluator name Maurice Lewis

Institution of evaluator Scientific Research Council

Date of evaluation 3rd March, 2005

Observations *(of the end of tool, use additional space if required)* The major impact of the project has been the increased awareness of the persons trained (3 staff members) in the three subject areas, especially environmental. The project has not impacted the company as was desired, but improvements have been put in place since the first assessment, which cannot be entirely attributed to the project. These include:

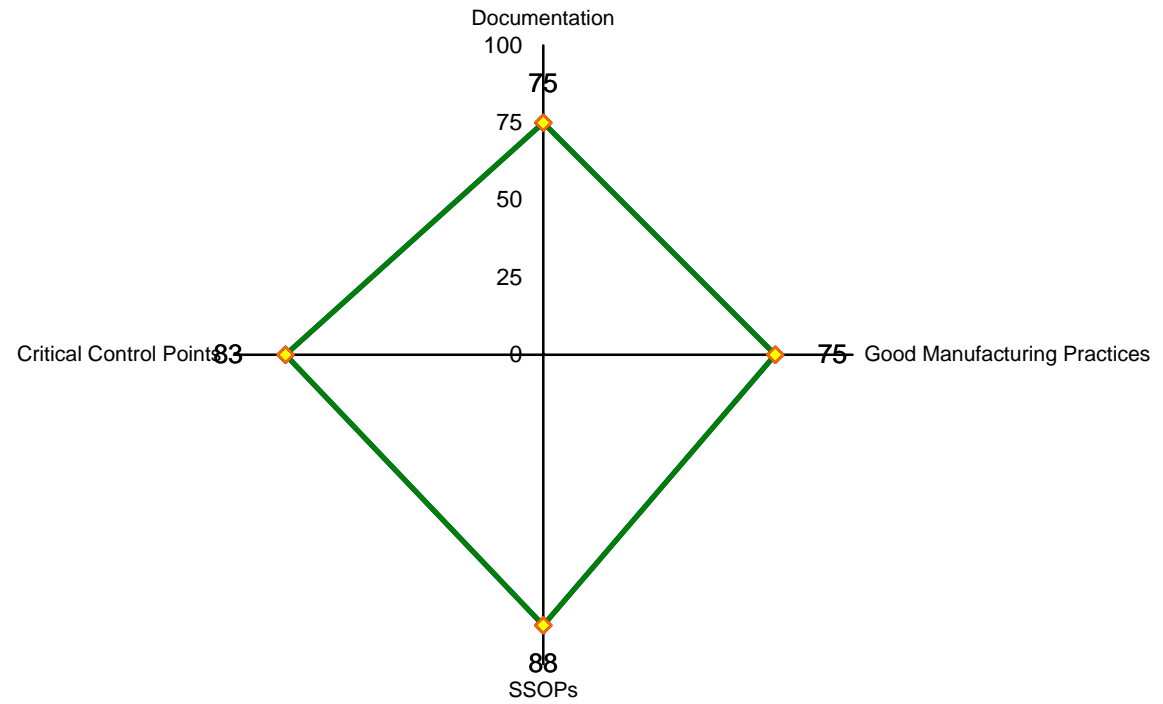

1. Improvement to the external garbage storage and collection system. A conveyor system is now being used to load vegetable type garbage into a collection bin from which it is collected by trucks and taken to a farm.
 2. Improved ventilation in the processing area and bammy making area by the installation of extractor fans.
 3. A system has been set up to better control wastewater from the plant. Wastewater from the cooling water system is filtered, chlorinated and used to flush toilets.
 4. Other wastewater is now collected after filtering and is removed by trucks from the plant. Further treatment is being contemplated.
- The boiler has been replaced.
